

Century PVC Round Double Insulated Submersible Pump Cable (600V)

This water resistant cable is used to power lights and pumps in fountains, pools or water wells. Century's® PVC Round Submersible Pump Cable has been engineered to power stationary or portable equipment that are either partially or fully immersed in water. Our jacket and insulation have been rated as water resistant by Underwriters' Laboratories and will not cut or scrape when put down the well.

2 Conductor with Ground PVC Round Double Insulated Submersible Pump Cable (600V)
