

50ft 10/3 STW Roofer's Heat Seaming Extension Cords

Our Heavy Duty Roofer's Heat Seaming "CGM" Extension Cords are used by roofing contractors to operate the most popular roof seaming machines. These safety compliant cords feature our patented "CGM" connector with a continuous green ground check light that lets you know the cord has ground continuity. In addition, a lighted amber plug indicates that the cord has power.

Heat seaming machines heat weld, seam, and seal heavy duty custom fitted plastic sheeting, which provide roofs with protective water resistant PVC barriers.

These seaming machines help roofing contractors accommodate each roof design with a custom made water vapor barrier to help provide years of added roof life.

FEATURES

- Manufactured with 10/3 AWG (America Wire Gauge) specifications
- Each of the 3 conductors contain 105 strands of 30 gauge 100% soft drawn bunch stranded copper conductors for maximum pliability under load
