

# 25ft 12/3 SJEOW -58°F Coldweather Extension Cords with "CGM"

Our Sub Zero rubber elastomer cord features our patented "CGM" Continuous Ground Monitoring connector. This latest safety feature identifies that there is ground continuity in a circuit when the green light turns on. In addition, the lighted amber male plug indicates there is power flowing through the cord. Our special -58°F "Sub Zero" coldweather jacket insures working flexibility in temperatures well below freezing.
